PROFESSIONAL SUMMARY

Full-stack developer with 4+ years of experience in technology and 2+ years building production software end-to-end (SaaS, POS and e-commerce). Specialized in NestJS, React, TypeScript and PostgreSQL. Designed and shipped a custom POS & inventory system serving 5 sales locations, and built e-commerce solutions on WooCommerce. Founder of Jugasaro, a multi-tenant SaaS platform. Proven ability to turn manual business processes into automated, scalable software.

TECHNICAL SKILLS

Backend: NestJS, Node.js, TypeScript, REST APIs

Frontend: React, TypeScript, HTML, CSS

Databases: PostgreSQL, relational database design

E-commerce & CMS: WordPress, WooCommerce

Payments & Integrations: Square

Architecture & Practices: Multi-tenant SaaS, custom business systems, process automation, full software development lifecycle

Tools & Practices: Git, GitHub · AI-assisted development (LLMs, code assistants)

PROFESSIONAL EXPERIENCE

JC Barber & Beauty Supply — El Salvador

Software Developer

Jul 2024 – Present

- Designed and built from scratch a custom POS & inventory system (NestJS, React, TypeScript, PostgreSQL), replacing generic solutions that did not meet the company's needs.
- Centralized operations across 5 sales points (warehouse, 2 stores, 3 mobile units) for ~15 active users, managing clients, suppliers and real-time inventory.
- Built a system handling 5,000+ SKUs and 100+ registered clients, with automated inventory counting and product/activity tracking.
- Developed and launched the company's online store (WordPress/WooCommerce), integrating Square as the payment processor for active online sales.

Technical Support

Jul 2022 – Jul 2024

- Served as the team's technical reference: configured equipment and trained users on Excel and internal systems (SalePro).
- Automated Excel spreadsheets to streamline repetitive tasks and reduce manual work — the first step toward custom software solutions.
- Managed invoicing, data entry and cleanup, and control of operational information.
- Produced product catalogs (Word → PDF), filtering and editing information for the sales team.

Instituto Nacional Ernesto Flores — El Salvador

IT Support Intern (University Social Service)

Aug 2019 – Jun 2020

- Performed hardware maintenance and repair (part replacement, cleaning) on laptops and desktop PCs.
- Installed and configured software from scratch: operating systems, Office and required tools.
- Trained teachers and students in basic IT and resolved user technical queries.
- Managed networks, equipment inventories and data cleanup.

KEY PROJECTS

Jugasaro — *Multi-tenant SaaS Platform · Founder & Developer*

- Built a multi-tenant SaaS platform for barbershops and beauty suppliers using NestJS, React, TypeScript and PostgreSQL.

JC Barber Store E-commerce — *WooCommerce*

- Developed a WooCommerce online store with Square payment integration, live at j sbarberstore.com.

joansaro.com — *Freelance Development Brand · Founder*

- Founded a freelance/agency brand offering full-stack web and software development services.

EDUCATION

B.Sc. in Computer Systems Engineering — Universidad de El Salvador (UES) · 2021

Graduation track: Specialized Networking Course (in lieu of thesis).

LANGUAGES

Spanish: Native

English: Intermediate (B1) — currently enrolled in formal English courses, actively improving.
